

# Course Overview and Syllabus: Math 4450, Sec 01. “Mathematical Statistics I”, Fall 2025

Course Website: [https://jeswheel.github.io/4450\\_f25](https://jeswheel.github.io/4450_f25)

## Instructor Information

Jesse Wheeler  
Mathematics and Statistics Department  
Email: [jessewheeler@isu.edu](mailto:jessewheeler@isu.edu)  
Office: PS 314C  
Office Hours:

- TBD

You can contact me during office hours or via Email. I will try my best to respond to questions within 24 hours during Mon-Fri. Feel free to email me over the weekends, but I may not be actively monitoring my emails during these times and you may have longer response times.

## Course Description

The first of a two-part sequence on: Probability, random variables, discrete and continuous distributions, order statistics, limit theorems, point and interval estimation, uniformly most powerful tests, likelihood ratio tests, chi-square and F tests, nonparametric tests. PREREQ: MATH 3326 and MATH 3352. Offered Odd Years in the Fall Semester.

This course is 3 Credit Hours, and we meet every Tuesday and Thursday, 11:00 am - 12:15 pm, PS 313, with the exception of university-observed holidays and breaks.

This course is a prerequisite for Math 4451. A student must earn a C- or better in this class in order to use this as a pre-requisite for this course.

## Course Objectives and Outcomes

- Students will use methods of intermediate probability theory.
  - Perform probability calculations.
  - Develop probability models.

- Prove elementary results about probability.
- Students will use random variables.
  - Perform rigorous probability calculations involving random variables.
  - Obtain distributional information about a random variable.
- Students will use theory associated with random variables.
  - Determine the distribution of a functional combination of a list of random variables.
  - Determine the distribution of the limit of a sequence of random variables.

## Course Format

This is a standard class where we will meet in-person. All students are required to attend all classes during the first week. Any student having to miss during the first week needs instructor approval. Students will be dropped from their courses if they do not attend the first week and do not have permission from the instructor.

After the first week of classes, attendance is expected but will not be recorded. Lectures will not be recorded, but slides will be available to students who miss lecture. Course materials, activities, and assignments will be posted on Canvas.

**General course information can be found at the course website:** [https://jeswheel.github.io/4550\\_f25](https://jeswheel.github.io/4550_f25)

## Assessment Methods

Student understanding will be assessed via homework, quizzes, a midterm exam, and a final exam.

## Textbook and Course Materials

John A. Rice. *Mathematical Statistics and Data Analysis*. Vol. 371. Belmont, CA: Thomson/Brooks/Cole, 2007. Third Edition. ISBN: 0-534-39942-8.

This text will be required.

## Software

This semester we will use the  programming language; for the purpose of our class, think of this software as a special calculator used for Statistics. To interact with this software, I highly recommend using RStudio, an Integrated Development Environment (IDE) built for writing  code.

**Why R?** R and RStudio are both free, and widely used software in both academia and industry. R has been built specifically to help practitioners do statistics easily.

- Installing : <https://cran.r-project.org/>
- Installing RStudio: <https://posit.co/download/rstudio-desktop/>. Note that you should install  prior to installing RStudio.

Other types of calculators are permitted, but it is not anticipated that they will be beneficial beyond what you can do in R.

## Grading

Grade	Percentage Range
Participation Quizzes	5%
Homework	50%
Midterm	15%
Final	30%

Table 1: Assignment Weights

Grade	Percentage Range
A	93–100
A-	90–92.99
B+	87–89.99
B	83–86.99
B-	80–82.99
C+	77–79.99
C	73–76.99
C-	70–72.99
D+	67–69.99
D	65–66.99
D-	60–64.99
F	0–54.99

Table 2: Grade Breakdown

An instructor may give an X grade when a student has not attended or stops attending, therefore giving the instructor no basis to calculate a grade for that student. The X grade is equivalent to an F. No credits or grade points are awarded in any courses for which an X grade is reported.

## Schedule (Tentative)

The table below provides a tentative schedule of the course. This table will be updated on the course website as needed.

Week	Dates (MWF)	Textbook Chapters	Topic
1	Aug 26, 28		
2	Sep 2, 4		
3	Sep 9, 11		
4	Sep 16, 18		
5	Sep 23, 25		
6	Sep 30, Oct 2		
7	Oct 7, 9		
8	Oct 14, <b>16</b>		
9	Oct 21, 23		
10	Oct 28, 30		
11	Nov 4, 6		
12	Nov 11, 13		
13	Nov 18, 20		
14	<i>Fall Break (No Classes, Nov 25 &amp; 27)</i>		
15	Dec 2, 4		
16	Dec 9, 11		
17	Dec 15–19	Finals Week (Dec 17)	

For other important dates and deadlines, please see the University academic calendar: <https://www.isu.edu/academiccalendar/>.

## Exams

- **Final Exam:** Wednesday, Dec 17, 7:30-9:30 a.m. (Sorry about the time, I didn't chose this). The location will be our regular classroom.
- **Midterm:** Planned for **Oct 17**, during regular class time. Tentatively, the midterm will cover Chapters 1-10.

## Homeworks

Homeworks make up the largest portion of your final grade. There will be 10 homework assignments, each worth 5% of your grade. Homework assignments will be due one week after they are assigned, which will be made clear to students via Canvas announcements. Late homework submissions will not be accepted, unless permission is provided by the instructor.

## Quizzes

There may be periodic quizzes on Canvas. The point of these quizzes is to assess student comprehension and satisfaction with the course. Some questions will be knowledge based, others survey / opinion based. Students who complete the quizzes will be awarded full points, regardless of whether or not they answer questions correctly.

## Academic Complaints / Grievances

Students with academic complaints / grievances should first meet with the instructor responsible for the policy, procedure, or decision that resulted in the student's initial complaint/grievance. If the student is still dissatisfied after that meeting, the student should next meet with the instructor's department chair (Dr. Rault, PS 318B, [patrickrault@isu.edu](mailto:patrickrault@isu.edu)) and then with the dean of the college (Dr. Widman, PS 120A, [jameswidmann@isu.edu](mailto:jameswidmann@isu.edu)). For more information, see: <https://www.isu.edu/deanofstudents/advocacy-services/>.

## Tutoring / Resources

The following link to the University Tutoring website includes hours of operation, a link for online (Zoom) tutoring, and other information: <https://www.isu.edu/tutoring/>

## Accessibility Statement

Our program is committed to all students achieving their potential. If you have a disability or think you have a disability (physical, learning disability, hearing, vision, psychiatric) which may need a reasonable accommodation, please contact Disability Services located in the Rendezvous Complex, Room 125, 282-3599 as early as possible.

## Academic Integrity

Academic integrity is expected of all students. Academic dishonesty, including cheating or plagiarism, is unacceptable. The Idaho State University academic dishonesty policy allows an instructor to impose one of several penalties for cheating that range from a warning up to assigning a failing grade for the course or dismissal from the University. ANY use of an electronic device or other form of unauthorized materials during an exam or other assessment will be considered cheating.

For more information, see the ISU Policies and Procedures Student Conduct System. [http://coursecat.isu.edu/undergraduate/academic\\_integrity\\_and\\_dishonesty\\_policy/](http://coursecat.isu.edu/undergraduate/academic_integrity_and_dishonesty_policy/)

## **Title IX**

Idaho State University is committed to fostering an environment in which students, faculty and staff from all backgrounds can live, work and learn free from the insidious and debilitating effects of prejudice, discrimination and marginalization. As such, ISU is committed to providing an environment free of all forms of discrimination, including sexual and gender-based discrimination, harassment, and violence such as sexual assault, dating violence, domestic violence, and stalking. If you (or someone you know) has experienced or is experiencing these types of behaviors, we have resources available to help.

ISU faculty and staff are concerned about the well-being and development of our students. If you inform me of any experience regarding harassment or discrimination, I (Jesse Wheeler) am obligated to share information with the ISU Title IX Coordinator to ensure that the student's safety and welfare is being addressed, consistent with the requirements of law. If you would like to talk to the Title IX Coordinator, Ian Parker directly, you may contact him at (208) 282-1439 or [ianparker@isu.edu](mailto:ianparker@isu.edu), located in Rendezvous 235. If you would like more information regarding Title IX or to make an online report please visit the Title IX homepage at <https://www.isu.edu/title-ix/how-to-report/>.

## **Health and Safety on Campus**

Idaho State University strongly encourages all individuals to receive a COVID-19 vaccine. Students who are experiencing COVID-19-like symptoms should not attend class in person. Individuals who are exhibiting symptoms of COVID-19 should contact University Health at (208) 282-2330 or their health care provider and complete the University's self-report form. Students are encouraged to notify faculty of illness and expected duration of absenteeism. Students are required to fully participate in the University's contact tracing process and follow all instructions related to quarantine and isolation.
